

Mzi Manyamalala

My flying career began when I was fortunate enough to be accepted in the SAA cadet pilot training program in 2005. We attended a three months preparation course and proceeded to do the actual flying training at 43 Air School in Port Alfred in the Eastern Cape and this is where I received my commercial pilot's license. I was given the opportunity to join South African Express Airways, initially in their operations department as a duty tracking agent for their aircrew. I'm currently serving SAX as a co-pilot on their Dash 8-300 fleet. My interest is to get involved in the maintaining of high aviation safety standards in our country.
